MARBLE

Our collection is more than just a piece of design: It’s a story.
Story about czech glass blowers, story about the heat of the furnaces, the smoke, deep & dark forests, story about artisans and craftmanship. It tells the story of an old glassworks from the 18th century and how something that will last for centuries is created.

It is the story of a unique glass colouring technology that was almost lost in the dust of history. It's the story of lithialin.

It is the story about lieb.werk´s Marble collection.

- Lukáš Benko / Co-Founder

Herr: Es ist Zeit. Der Sommer war sehr groß.
Leg deinen Schatten auf die Sonnenuhren,
und auf den Fluren laß die Winde los.
Befiehl den letzten Früchten voll zu sein;
gib ihnen noch zwei südlichere Tage,
dränge sie zur Vollendung hin und jage
die letzte Süße in den schweren Wein.
Wer jetzt kein Haus hat, baut sich keines mehr.
Wer jetzt allein ist, wird es lange bleiben,
wird wachen, lesen, lange Briefe schreiben
und wird in den Alleen hin und her
unruhig wandern, wenn die Blätter treiben.
- Reiner Maria Rilke / Co-Founder

.marble / OVUM

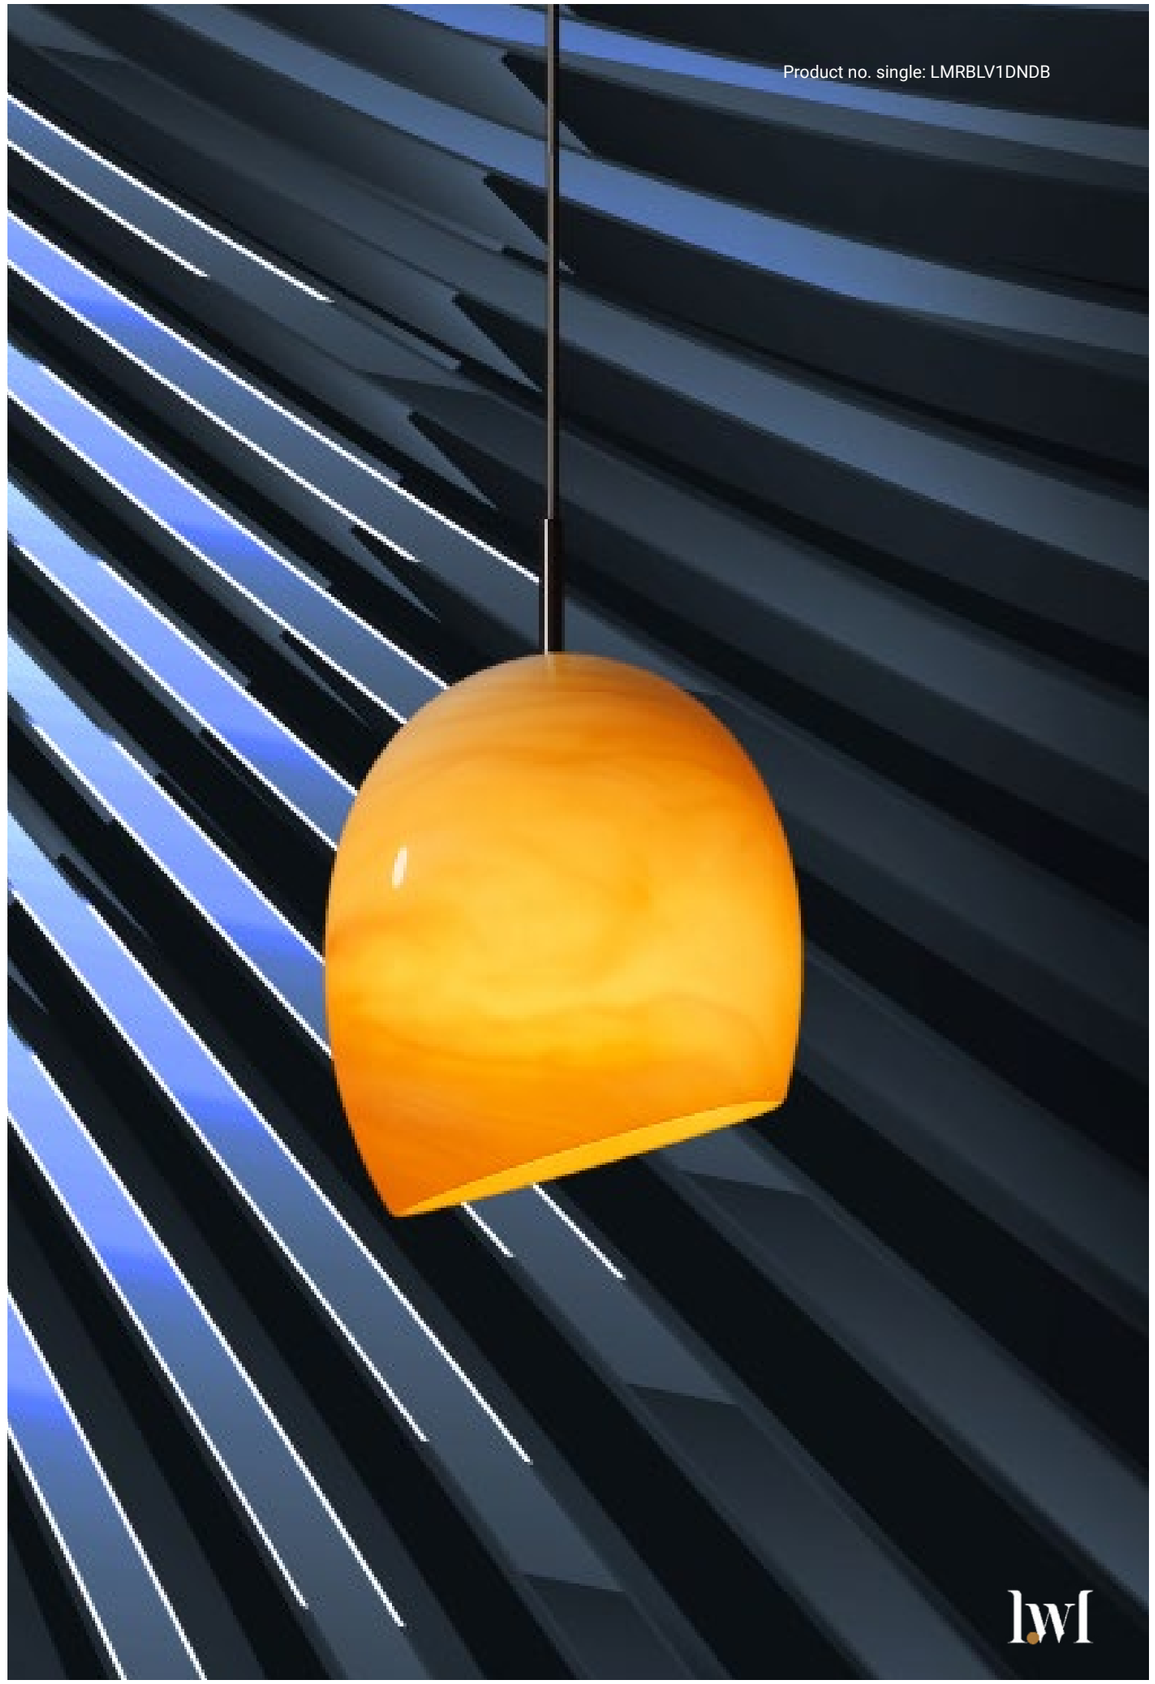

Designer: LWL

Model: Ovum Triple

Material: Crystalline Glass / Lithialin Finish

Size :230 x 145 x OH 1500 (mm)

Product no. triple: LMRBLV3DNDB

.marble / AMPHORA

Designer: LWL
Model: Amphora
Material: Crystalline Glass / Lithialin Finish
Size : 280 x140 x OH 1500 (mm)
Product no. triple: LMRBLA3DNDB

.marble / ORBIS

Designer: LWL
Model: Orbis
Material: Crystalline Glass / Lithialin Finish
Size : 200 x 240 x OH 1500 (mm)
Product no. triple: LMRBLO3DNDB

Mi sono sempre stati cari questo colle solitario
e questa siepe, che copre alla mia vista
una buona parte dell'orizzonte più lontano.

Ma mentre sto seduto e osservo,
io immagino nella mia mente spazi interminati oltre la siepe,e silenzi sovrumani
e profondissima quiete, tanto che per poco
il mio animo non s'impaurisce. E non appena odo
il vento stormire tra le fronde di queste piante, paragono
quell'infinito silenzio a questo frusciare:
e mi viene in mente l'eterno,
le ere già trascorse, e quella attuale e
ancor viva, e il suo suono
.
Così il mio pensierosprofonda in quest'immensità:
e il naufragare in questo mare è dolce per me.

- Giacomo Leopardi / Co-Founder

Cabel & Sleeve BLACK / WHITE / STEEL

Lithyalin is a type of glass developed in the 19th century by the Czech glassmaker Friedrich Egermann. This glass is characterised by its repetitive, opaque texture and various colours such as red, blue, green and brown. Lithyalin glass is characterised by its gem-like appearance and was mainly used for decorative objects and jewellery. Egermann obtained a patent for this type of glass in 1828.

lieb.werk is the exclusive licensee of this patent on this planet and maybe beyond.

SKLÁRNA JÍLEK

Lieb.werk closely collaborates with one of the oldest operating glassworks factories in the Czech Republic. The glass-works was founded in 1905 by Antonín Jílek and Franz Vetter as a joint venture of a Czech and a German entrepreneur. In 1920 Franz Vetter sold his shares to the younger brother of Mr. Jilek and the blowery became Jilek Glassworks. Until its nationalization in 1945 the brothers produced luxury chandeliers and glassware for the nobility and the rich bourgeoisie.Apracticed with quiet mastery. Here, glass is not produced — it is breathed into form. Each piece they touch carries the gesture of the maker, the memory of fire, and the poetry of Bohemian tradition.

ABOUT US

lieb.werk is a group of glass, design, poetry and technology enthusiasts. Founded in 2023, its products are exclusively handmade in centuries-old glassworks in northern Bohemia / Czech Republic.
All other components come solely from the European Union.

At the heart of our work lies breath, glass, fire and people. Within the historic walls of Jílek glassworks, time slows down. Techniques passed from hand to hand, generation to generation, are still practiced with quiet mastery. The Poetry of Bohemian tradition.
